River Fox *Events*

A REFERENCE FOR DESIGN, COPY, SEO AND SOCIAL

Party and event styling in Surrey, by Laura. Each one individually designed, set up before guests arrive and cleared away after.

This book matches the live website as of 13 November 2026. The website code is the source of truth: if the two ever disagree, the website wins and this book gets updated.

CHAPTER 01

Individually designed, *personally delivered.*

River Fox Events is Laura's party and event styling business in Surrey. She writes as herself, to a parent or host who wants to know it will look lovely and that someone else will take care of it.

WHAT IT IS

One person, start to finish.

Laura designs each event herself, builds it on site, sets it up before the first guest arrives and packs it all away afterwards. The business is kept small on purpose so she is hands-on with every one.

Home headline	Parties and events, styled in *Surrey.*
Mission line	I style children's parties, milestone celebrations and brand events across Surrey and London, each one individually designed.
About headline	Personally designed. Personally delivered.
Enquiry headline	Let's create something beautiful.
Footer line	Luxury event styling across Surrey. Formerly known as Lollipop Balloons.

These five lines are live on the website. Reuse them as written; don't paraphrase them into new slogans.

WHO IT'S FOR

Four kinds of work.

- **Children's parties.** Themed backdrops, arches and party tables, set up at home or at the venue
- **Milestone celebrations.** Christenings, baby showers, 21sts, 40ths, 50ths, 70ths, anniversaries and weddings
- **Corporate and brand.** Launches, openings, award nights and activations. Trusted by P&G, The Range and Foxhills
- **Balloon decorations and Christmas.** Arches, garlands, walls and number stacks, plus Christmas door garlands for homes and businesses

WHAT WE PROMISE

Three things we hold to.

01 **Individually designed.** Every event gets its own concept: a moodboard, colour palette and visuals, so the client knows how it will look before anything is made.

02 **Personally delivered.** Laura is there for every event, from the first sketch to packing down on the day.

03 **Finished before guests arrive.** The host walks into a completed space. Afterwards it is all taken away.

The numbers	400+ events styled · 8 years in Surrey · 100% individually designed
The process	1. Share your vision · 2. Your proposal · 3. Installation

SEVEN RULES

How Laura sounds.

01 **First person.** "I", not "we". Laura speaks as the designer. Fixed labels such as "See our work" are the only exception.

02 **Warm and flowing, not clipped.** Full, gentle sentences. Laura asked for this in 2026: the earlier short, insider style read as cool and detached.

03 **Reassure the host.** Start with the reader's worry and answer it. "Many parents assume they need to hire a venue, but…"

04 **Name the real thing.** "Pink scallop-edge plates, a soft zebra-print salad plate on top", not "a beautiful table". Warmth never replaces detail.

05 **Plain words first.** Say "balloon arch" and "set up before your guests arrive". Explain any trade term so a parent can follow it.

06 **Hyphens, not em dashes. No exclamation marks. No emojis.**

07 **Explain why, don't sell.** Say why a choice was made and let the reader decide it was a good one.

BUTTONS

What the buttons say.

Main button	Reserve your date	Hero and article buttons, sitewide.
Nav and Christmas page	Enquire now	The nav button and the Christmas Door Garlands hero.
Never		"Start planning" or any "planner / planning" wording. Laura styles and decorates; she doesn't plan parties.

CHAPTER 02

Say this, *not that.*

Laura locked these rules in May 2026. They apply everywhere: page copy, search descriptions, alt text, captions and replies.

BANNED

Never use.

~~Em dashes~~ · ~~Exclamation marks~~ · ~~Emojis~~ · ~~Design-led~~ · ~~From scratch~~ · ~~Planner / planning~~ · ~~If you're looking for...~~ · ~~Look no further...~~ · ~~We pride ourselves on...~~ · ~~Our team of experts...~~ · ~~The perfect party~~ · ~~Stunning~~ · ~~Amazing~~ · ~~Wow factor~~ · ~~Show-stopping~~

Instead of "design-led"	"Thoughtfully styled" in body copy, "bespoke" in search descriptions.
Instead of "from scratch"	"Individually designed".
Instead of an em dash	A hyphen with a space each side, or a new sentence.
Character themes	Never "IP", "licensed" or "unlicensed". Name the theme: "a Wonka party".

USE RARELY

Capped words.

- **Elevated.** As little as possible
- **Bespoke.** Free in body copy (it is Laura's own word). Never in a page title, and once at most in a search description
- **Luxury.** Twice at most across all page titles
- **From £300.** In six search descriptions at most, so the pages don't all read the same

PREFERRED

Words we like.

Thoughtfully styled · Individually designed · Personally delivered · Considered · Calm · Set up before guests arrive · Cleared away after · Hands-on · Palette · Scale · Moodboard · The proposal · Installation · Built on site · Pastel and neutral · Milestone

The words people actually search for

The SEO work in November 2026 showed that customers search in plain terms, and the site now uses them. Use these in headings, descriptions and captions before anything cleverer.

Balloon decorations · Balloon arch · Balloon garland · Balloon wall · Number stack · Kids party decorations · Milestone birthday decorations · 50th birthday decorations · Shimmer wall / sequin wall hire · Party styling in [town] · Corporate event styling · Christmas door garlands

DON'T, THEN DO

In practice.

DON'T

> "If you're looking for the perfect party, look no further. Our team of experts will create a stunning, show-stopping event!"

Filler, praise words, "our team", an exclamation mark. Says nothing about the work.

DO

> "Kids party decorations across Surrey, from balloon arches to themed backdrops, set up before guests arrive and cleared away afterwards."

Plain search words, real items, and the promise. This is the live Children's Parties description.

LAURA SUPPLIES

In.

- **Balloons.** Arches, garlands, walls, hoops, towers, organic installations, number stacks, jumbo and helium balloons
- **Backdrops.** Fabric, sailboards (painted panels with vinyl), themed photo walls, sequin and shimmer walls, full themed installations
- **Signage.** Painted boards, vinyl and acrylic lettering, life-size cutouts, personalised acrylic and foam signs, welcome signs
- **Light-up letters and numbers**, and up-lighters including waterproof ones for outdoors
- **Props.** 3D acrylic props, plinths, risers, cake stands (not the cake)
- **Textiles.** Drapery, muslin, cheesecloth, linens, chair sashes and covers
- **Soft seats, low tables and cushions** for children's setups and picnics
- **Christmas.** Door garlands in fresh spruce or faux for homes and businesses, and Christmas balloon pieces for counters, windows and salon floors
- **Faux flowers and foliage** as a finishing detail on props, hoops, arches and garlands

LAURA DOES NOT SUPPLY

Out.

- Floristry: bouquets, flower arranging, fresh flower centrepieces
- Glassware, vessels, vintage stoneware
- Candles or candle holders
- The cake itself
- Catering, food, drink or bar service

THE FLORAL RULE

Laura is not a florist.

Laura does use flowers and foliage in her work: fresh spruce and faux stems in Christmas garlands, faux flowers and foliage on props, hoops and balloon arches. That is all fine to show and to mention.

What we never do is advertise her as a florist or offer floristry. No "florist", "floral design" or "flower arranging" in titles, descriptions, headings, captions or ads. The balloons, backdrops and garlands are the headline; the flowers are a detail.

Logo brown #5D554B	The logo itself and highlight-cover words.

CHAPTER 04

Fraunces, DM Sans *and DM Mono.*

Three families and fourteen named text styles, on a short list of spacing values.

THREE FAMILIES

What each one is for.

Aa

Fraunces

Headings, quotes and the italic accent word. Regular 400. The light 300 read too thin on screen and is no longer used on the website.

Aa

DM Sans

Everything you read: body, lead, captions. Regular 400. Medium 500 for buttons, nav, labels and the wordmark. Semibold 600 for bold in body text and tags.

Aa

DM Mono

Overlines only: the small capitals above a heading. Medium 500, 11px, capitals, 0.18em spacing.

HEADINGS

Fraunces Regular.

DISPLAY	Parties and events	52 to 116px · home and service heroes
HEADING 1	Party styling in Cobham	42 to 80px · page titles
HEADING 2	How it *works.*	36 to 68px · every section title
HEADING 3	Children's parties	32 to 52px · under a display heading
HEADING 4	Tell me about your celebration	26 to 32px · forms, prices, CTAs
HEADING 5	How much does event styling cost?	22 to 26px · cards, FAQ questions
HEADING 6	Dylan's christening	17 to 18px · names under photos
QUOTE	It's never just been about balloons.	24 to 36px · journal pull quotes

The first number is the phone and tablet size, the second the largest desktop size. Phones and tablets share one scale: 42 / 36 / 32 / 26 / 22 / 17. Line height is 1.04 for Display to Heading 3 (1.1 on phones), then 1.15, 1.25 and 1.2. One accent word per heading is set in italic, in Accent dark.

TEXT

DM Sans and DM Mono.

STYLE	SIZE · LINE HEIGHT	USED FOR
Lead	18px · 1.6	Intro under a section title, hero sub-copy
Body	17px · 1.7	Paragraphs, FAQ answers, reviews, form fields
Small	15px · 1.6	Card text, photo captions, form help
Meta	13.5px · 1.5	Footer, legal, dates
Label	13.5px · medium	Buttons, nav, link labels
Overline	11px · DM Mono medium · capitals · 0.18em	The small line above a heading

Body sizes are the same on phones and desktop. That makes fourteen text styles in total; if something needs a fifteenth, it is probably the wrong design.

THE PAGE FRAME

Width and gutters.

WHAT	VALUE	NOTES
Maximum width	1440px	Content never gets wider than this
Side gutter	56px · 8% of the width from 768 to 1366px · 32px on phones	Space left and right of the content
Section padding	120px · 80px on laptops · 64px on phones	Top and bottom of every section
Gap between sections	1.25 × section padding	Where two sections share a background
Heading to text	20px	Any heading to the paragraph under it, everywhere on the site
Section title width	About 18 characters	Titles wrap sooner, with their lines balanced
Intro width	About 44 characters	The paragraph under a section title
Nav bar	78px tall, 72px on phones	Fixed to the top
Tap target	44px minimum	Anything a finger has to press

CORNERS

Three, no more.

CORNER	VALUE	USED FOR
Large	16px (12px on phones)	Cards, panels, photos, videos, the map
Small	6px	Buttons, form fields, badges, tags
Round	Full	Pills, dots, circles

A panel that contains large-cornered items uses twice the large corner. Small went from 4px to 6px on 13 November 2026. The old 8, 10 and 14px corners are gone.

BUTTONS

One main button.

Reserve your date See our work

Main	Accent fill #E6B4A8, Primary text, 6px corners, DM Sans medium 13.5px. Hover: #DD9988.
Secondary	Outline only, same shape and type.

SHADOWS AND MOTION

Named, like everything else.

Shadows, page layers and animation speeds have names too: 12 shadows, 7 page layers, 7 speeds from 0.15 to 1.6 seconds, and 5 curves. Nothing on the site is hand-set. The live list is on the website's style guide, under Effects.

CHAPTER 05

Real work, *found first.*

One honest photo grade, and the rules the website copy follows so pages don't all sound alike.

REAL EVENTS ONLY

No stock, no invention.

- Every photo on the website and social is a real event Laura styled
- Lead with what she supplies: balloons, backdrops, signage, light-up numbers, plinths and props
- Flowers and foliage can be in the photo. The caption and alt text describe the installation, not floristry
- Keep the subject central so a square or 4:5 crop still shows it
- AI-generated images are a last resort for journal articles only, never for the gallery, service pages or social, and never passed off as a real event
- Never use `rishi-summer-party-bright-balloon-backdrop.webp`

THE HOUSE GRADE

Bright and airy.

Look	Clean whites, open shadows, accurate colour. Balloons and paintwork should look the colour they really were.
Avoid	Heavy filters, orange skin tones, crushed blacks, theatrical lighting.
Where	Google Drive › River Fox Events › Photos - graded (website): Children's parties, Milestones, Corporate & brand, Christmas.

NAMES AND ALT TEXT

One image, one name, one description.

- The filename describes the photo, not the page: `cobham-balloon-arch-pastel.webp`, not `journal-image-1.webp`
- Alt text says what is in the photo, in 125 characters or fewer
- Alt text never starts with the brand name
- No two images open their alt text with the same five words
- The same file keeps the same filename and alt text wherever it appears

DON'T

> "Children's party styling in Surrey by River Fox Events"

About the page, not the photo. Repeats across files.

DO

> "Rose gold light-up 40 marquee with a blush and chrome balloon installation in a hall with a wall clock"

Says what is there. This is live alt text from the home page.

PAGE TITLES

60 characters at most.

PAGE	PATTERN	LIVE EXAMPLE
Service page	[Service] in Surrey | River Fox Events	Children's Party Styling in Surrey | River Fox Events
Town page	Party Styling in [Town] | River Fox Events	Party Styling in Cobham | River Fox Events
Journal article	[Post title] | River Fox Events	50th Birthday Decorations in Surrey | River Fox Events
Contact	Contact Laura | River Fox Events	

Every title ends "| River Fox Events". The home title is "Party & Event Styling in Surrey | River Fox Events".

DESCRIPTIONS AND HEADINGS

Each page says something different.

- **Search description.** 150 to 160 characters. Start with the search term and the place
- **Main heading (H1).** One per page, different on every page. Never the "[Service] stylist, based in Surrey" pattern
- **Hero sub-copy.** Different on every page, and it opens with a different word from the heading
- **The five-word rule.** No two titles, descriptions, headings, hero paragraphs or alt texts on the site start with the same five words
- **Web addresses.** Lower case, hyphens, always ending in a slash: `/childrens-parties/`
- **Capped words.** See chapter 02: bespoke, luxury and "from £300" are rationed across titles and descriptions

TOWN PAGES

Local, short and not copied.

- Party Styling in [Town], one page per town across Surrey, Sussex and west Kent
- 200 words of prose at most
- The town name three times at most in the prose, and 8 to 10 times on the whole page
- One real local place per paragraph: a venue, a village, a landmark
- No sentence repeated from another town page

BEHIND THE SCENES

Schema and Google.

Schema on the site	LocalBusiness, Organization, Service, FAQPage, BreadcrumbList and Article.
Reviews	Real Google reviews only, shown word for word. Never invented, never edited. Review cards stop at 7 lines with an ellipsis, and the whole card opens the full review on Google.
Old name	"Lollipop Balloons" is carried as the alternate name so old searches still land here.
Google Business Profile	Primary category "Balloon artist". Keep its services wording in step with the Balloon Decorations page.
Before changing copy	Put the proposed titles and descriptions in a table and agree them first. Then edit.

Baseline, 9 November 2026: technical audit 42 out of 42. AI assistants already name River Fox first in Surrey for children's parties, milestones, corporate and Christmas garlands, but not yet for "balloon decorations in Surrey". That is why the Balloon page and this book now use the plain search words.

PRICES

Say these, exactly.

Starting price	Events from £300. This is the only price shown on the website. It was £460 until 7 November 2026; anything still saying £460 is out of date.
Bigger designs	Full room setups and larger installations usually range from £600 to £1,500+. For quotes and conversations only: Laura doesn't show this range on the website.
Quotes	Every event is quoted individually, with a clear proposal before anything is confirmed.
Enquiry form budgets	Under £300 · £300 – £600 · £600 – £1,000 · £1,000 – £1,500 · £1,500+ · Not sure yet

Reply time	Within 1 to 2 working days. On the Christmas garland pages: within 24 hours, because it's so close to Christmas.

SERVICE FACTS

Confirmed by Laura.

- Every arch and garland is built on site at the event, never made in advance
- Air-filled pieces stay full for days indoors
- Helium balloons last no more than a day and go down quickly in heat or cold, so they go up just before the event
- Laura does weddings
- She takes on a limited number of events each month

CHAPTER 07

One logo, *one pink.*

Laura's logo is warm brown on her own soft pink. Those two colours belong to the logo and to Instagram and Facebook. The website keeps its warm white and ink.

THE THREE VERSIONS

Stacked, horizontal, monogram.

STACKED - PRIMARY

HORIZONTAL - WIDE SPACES

MONOGRAM - SMALL MARKS

WHERE EACH ONE GOES

Pick by the space.

Stacked	Profile pictures, end cards, print, anywhere roughly square. The default.
Horizontal	Email footers, banners, signage: anywhere wide and shallow.
Monogram	Favicons, stamps, stickers: when the full name will not fit or read.
Profile-picture cut	The stacked logo with “RIVER” and “EVENTS” drawn slightly heavier so they hold at phone size. Social profile pictures only.

LOGO COLOURS

Brown on pink.

Logo pink

#F7EEE9

`hsl(21 47% 94%)`

Ground for the logo and for social.

Logo brown

#5D554B

`hsl(33 11% 33%)`

The logo itself. Highlight-cover words.

Warm white

#FCFBF8

`hsl(45 36% 98%)`

Logo reversed out of photos or moss black.

Files	Google Drive › River Fox Events › Logo (SVG and PNG, four colourways).
Never	Stretch it, recolour it outside the four colourways, or set it on a busy photo without a tint behind. On the website the nav and footer use the typed wordmark RIVER FOX EVENTS in DM Sans medium capitals, not the logo file.

THE PROFILE

One logo, one pink.

Handle	@riverfox_events on Instagram. The same name and picture on Facebook.
Profile picture	The stacked logo (profile-picture cut) in logo brown on logo pink. 1080 × 1080, shown as a circle.
Highlight covers	One word each (Doors, Stacks, Boards, Bubbles, Garlands, Hoops, Walls) in Fraunces italic, logo brown on logo pink. Sized to fill the circle.
Files	Google Drive › River Fox Events › Instagram profile. Eight numbered files; everything else is in its Archive folder.

REEL COVERS & POSTS

Two lines, one idea.

Hook	Fraunces Light 300, the one place the light weight is used. Two short lines, the first upright and the second italic, in one colour. Eight words in total. Big.
Supporting line	DM Sans 600, capitals, directly under the hook. Eight words at most.
Handle	@RIVERFOX_EVENTS in small spaced capitals at the foot. Nothing else down there.
Placement	Wherever the photo is quiet: top, middle or lower third. It does not always sit in the middle.
Colour	Warm white over photo or video, with a soft moss tint behind for legibility. Ink or logo brown on logo pink for type-only posts.
Background	A still from the reel itself, or a photo from the graded set. Logo pink only when there is no footage.
Voice	Laura says “I”. No exclamation marks, no em dashes, no emojis. Name the real thing: the staircase, the palette, the door.

SIZES

What to make, and how big.

PIECE	SIZE (PX)	NOTE
Reel cover, story	`1080 × 1920`	Keep text inside the middle 1080 × 1440. The profile grid crops the rest.
Feed post, carousel	`1080 × 1350`	Works unchanged on Instagram and Facebook.
Profile picture, highlight cover	`1080 × 1080`	Shown as a circle. Keep everything central.
Facebook cover	`1640 × 624`	Keep text in the middle two-thirds; phones crop the sides.
Link / share image	`1200 × 630`	Shown when a website link is shared.

PHOTOS

The graded set.

Where	Google Drive › River Fox Events › Photos - graded (website). Children's parties, Milestones, Corporate & brand, Christmas.
Look	Bright and airy, clean whites, open shadows, accurate colour. The same house grade as the website gallery.
Rule	Real work only. Installations, backdrops, signage and light-up numbers lead. Never present Laura as a florist.
